REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose the structure of the exposure device as claimed in the independent claims 4, 11, 19 and 26, the exposure device, which scans, with an exposure light, the image carrier along a main scanning direction to form a latent image on the image carrier, comprising a housing, a light emitting section which emits a laser beam, a polygon mirror as a deflection means provided in the vicinity of a side in the housing, which includes a plurality of reflection planes along the main scanning direction to deflect the laser beam in the main scanning direction, a mirror as a reflecting means provided in the vicinity of another side in the housing, which reflects the laser beam deflected by the polygon mirror at a predetermined angle to guide the laser beam outside the housing, and a projection provided on an outer surface of the housing between the polygon mirror and the mirror, wherein a central axis of the projection passes through an exposure light spot of the laser beam irradiated on the image carrier.

Claims 7, 9-10, 12-18, 20-25 and 27-28 are allowed because they are directly or indirectly dependent from claims 4, 11, 19 and 26 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
